

## INDUSTRIAL WASTE QUESTIONNAIRE (IWQ) - SHORT FORM

This form is used to determine types and sources of wastewater that are entering the Quonset Development Corporation's sanitary sewer system and must be completed in accordance with section 4.16.7.A of QDC's Sewer Treatment User Regulations (RICR 880-4). **A complete form must be submitted to the Quonset Development Corporation c/o Planning Manager, 95 Cripe Street, North Kingstown, RI, 02852 for all new development in the Park and updated every 5 years.**

### Section 1 - General Facility Information

Name of Company or Corporation:	
"Doing Business As" (DBA) if different:	
Facility Address:	
Business Mailing Address:	

### Section 2 - Designated Facility Contact

Name:	
Title:	
Phone:	
Email:	

### Section 3 - Facility Operations

**3A.** Please indicate the start and end time of the facility operations for each day.

	Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
Hours of Operation:							

**3B.** Please indicate which Standard Industrial Classification (SIC) Code(s) the facility reports under.

SIC Codes: \_\_\_\_\_

**3C.** In the space provided below, briefly describe the services, operations and/or manufacturing processes that occur at the facility. Please provide as attachment if more spaces is required.

**Section 4 - Water Usage and Discharge Information**

In the table provided, please provide information regarding the wastewater generated at the facility. New facilities may estimate usage.

- Please review the facility’s operations identify all locations where water is used. Note that all businesses will have sanitary wastewater discharge from toilets and sinks. Other sources of wastewater may include the waters used to clean or rinse items as part of a manufacturing operation; these wastewaters should be classified as process wastewaters.
- The facility may also use water for cooling or heating operations; some or all of this water may be discharged to the sewer as wastewater.
- Some water purchased by the facility will not be discharged to the sewer, especially where it is consumed or evaporated in facility’s operations (i.e., landscaping, irrigation, cooling and heating). The types and amounts of water used in these operations should also be included in the table below.

Source	Description	Volume (gallons per day)	Discharged to Sewer (Yes or No)
Restrooms: Toilets & Sinks	Sanitary Wastewater*		
Process Wastewater # 1			
Process Wastewater # 2			
Cooling Water (Contact)			
Cooling Water (Non-contact)			
Boiler Blow-Down Water			
Irrigation and Lawn Watering			
Other Source			

\*To estimate your sanitary waste, multiply the number of employees by 15 gallons per day per shift.

**Section 5 – Authorized Representative Signature**

The Quonset Development Corporation’s Sewer Treatment User Regulation requires that an Authorized Representative of the facility sign all reports and forms to QDC. An Authorized Representative is defined as a person responsible for principal business decisions or other policy decisions for the facility.

To the best of my knowledge the information on this form is true and accurate, signed:

Authorized Representative Signature: \_\_\_\_\_

Printed Name: \_\_\_\_\_
