

PUBLIC INFORMATION SESSIONS

Attend one of these public information sessions to learn more about a proposed energy storage project at the Quonset Business Park.

GDQ ESS will store clean energy when it is produced and release it to the grid when it is needed. The project will connect directly to transmission lines to increase grid reliability in the region. The system will use safe and dependable energy storage technology deployed by Green Development, LLC.

WEDNESDAY, APRIL 22 – 6PM

The Quonset “O” Club
200 Lt James Brown Rd
North Kingstown, RI 02852

TUESDAY, MAY 12 – 6PM
